DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 48-82 and 88-91, drawn to a method of attenuating expression of a target gene using a dsRNA, classified in class 514, subclass 44.
- II. Claims 50-66 and 81-91, drawn to a method of attenuating expression of a target gene using a variegated library, classified in class 514, subclass 44.

Claims 50-66, 81, 82 and 88-91 are generic with respect to Groups I and II and will only be examined to the extent that they read on the elected invention.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to materially different methods with different modes of operation. Specifically, the methods of Group I operate by attenuating the expression of a target gene by administering a hairpin RNA of one known sequence, whereas the methods of

Art Unit: 1635

Group II operate by providing a multitude of hairpins, or variegated sequence, to produce an effect.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
